

Forward 2044 Vision Map

Existing Agency Landfill and Resource Recovery Facilities

Construction and Demolition

- Evaluate current tonnage to identify tonnage potential
- Evaluate management and shredding costs and options
- Pilot/start diversion

Current Compost Site

- Address capacity
- Truck traffic

Waste Acceptance

- In-bound waste acceptance plan
- Active selection

2044 + Vision

- Goals and discussion with Cedar Rapids and industry
- Governance
- Infrastructure – current assets
- Services beyond 2044
- Foundation of future services
- Hauler engagement

Data Evaluation and Program Development

- Refine waste volumes based on the 2022 waste sort
- Identify opportunities for improved waste density/compaction
- Identify opportunities for waste diversion
- Identify opportunities for waste transfer
